

Dear Miss Lucy, Dance Gallery 2 dancers and families,

The Child Life Program at Sutter Children's Center is so grateful for your ongoing support of children and families here in the hospital. Now that we have moved to our new building and campus, we are working hard to make it feel like home! Your support will help us to continue to offer a wide range of toys and activities to infants, toddlers, children and teens. Our services and programs are designed to help make a stressful situation as comfortable as possible, and to support children's development and coping during their medical experiences.

My daughter and I loved the Holiday Revue this year! We love to watch the dancers of all ages, and to witness firsthand the incredible sense of family and community. I especially loved the choreography this year – it was tight, exciting and unique!!

Thank you so much for all that you do for your community!

Happy New Year!

Amy
