

DG2 April Update #2!

Greetings Dance Gallery 2 dancers! We've had a really exciting week receiving all the color contest entries! And they are gorgeous! It's difficult to choose a winner because every one of our dancers seems to be quite talented in the Art Department. So! Let's do a vote and everyone can have a say! Look over the amazing entries and vote for the one that catches your eye! Please vote 3 times, one in each category; 4 - 7 year olds, 8 - 12 year olds and Student Teachers. A winner in each of the age categories will receive a Visa Gift Card! But guess what! Every entrant will receive a gift from the DG2 for their entry. Please call the DG2 (916) 771-0775 and leave a voicemail with your selection or send your vote by email to: office@dancegallery2.com, or Fax to: (916) 771-5634.

****Please note: do not text your vote as it will not be received by the DG2 office.**

The "Wizard of Oz" production number is really developing into another great DG2 showpiece! Most of the classes involved have finished their main piece of choreography through the use of the online classes! It's important that all the dancers keep up with their online classes because teachers are moving forward and starting to present the curtain call choreography, the Finale' number choreography and selected classes are even beginning to work on the Disney Parade choreography for the Disneyland Dance the Magic event. Our DG2 dancers are very fortunate to have this outlet to keep up their physical activities and dance choreography so we can jump right into rehearsals when our Stay at Home is lifted!

Even in this difficult time of staying at home and missing our friends in school and in dance class, wonderful things still happen all around us. The DG2 is happy to welcome a future dancer, Audrey Rayn Munoz who is the new baby sister of Thea Rivera. Thea is 9 years old and takes a Jazz/Tap class and a Hip Hop class and this year at our 2020 show, Thea will be receiving her 5 year Achievement Trophy on stage! What a great year for Thea and her family! Congratulations Rivera Family!

The DG2 is so grateful to have a professional film and music editor right here at the DG2. Mr. Doug owns the EFX Photography & Post-Production Company and he is the official videographer/editor for all the Dance the Magic events for Disneyland, Disney World, on Broadway at the New Amsterdam theater and soon to be filming/editing at the Grand Ol' Opry in Nashville TN. It's a lot of travel and a lot of time behind the camera and hours in his editing studio, which conveniently happens to be located right here on the DG2 property.

The process of preparing your online lessons takes several steps and many people. Firstly, your teacher signs up for a time slot to use the studio. Miss Amber takes their requests and keeps track of when each teacher records their lesson. Each teacher has their own time slot to be in the studio by themselves and use the film equipment that Mr. Doug has set up for them. Each filming session takes 1-2 hours. After each filming, Mr. Doug sanitizes the film equipment, the sound equipment and the studio area that is used. This is done 3 or 4 times a day. At the end of each day, he collects the video card used to record the lessons. The next day, he begins editing the recordings and then creates the video lesson. Each lesson takes Doug about 2-3 hours to edit and compress. He then drops off the completed product for Mr. Steve to pick up and upload into a folder for Mellissa to sort out and distribute to the correct classes. All of this happens so our dancers can continue their classes and prepare for our upcoming show.

Keep up with your teachers and practice with your videos!

More exciting news! Costumes are still coming in each week! Mellissa and Lee are working on a distribution program to get the costumes into your hands. Keep a look out for details to come!

STAY HOME, STAY SAFE, STAY HEALTHY... WE HAVE A SHOW TO DO!
